

Automated Reminders

Send automated or on-demand reminders to increase appearance rates and improve outcomes

Positively impact your number of defendant appearances through the use of automated SMS-text and email message reminders with equivant Pretrial. Whether a standard court date or another important appointment, the Northpointe Suite offers full agency configuration that can be easily customized by message type, cadence, language/verbiage, number of reminders, and more. Your staff can also send on-demand SMS or email messages directly from a defendant record.

Key Features

Automates entire reminder lifecycle based on agency preferences

Automated and on-demand SMS-text and email messaging

Quick and seamless configuration

Capabilities to configure 2nd and 3rd reminder notices

With equivant Pretrial, your agency can:

- Drive success within your pretrial program
- Ensure awareness of all important dates pertaining to each defendant
- Help staff better manage their caseloads
- Reduce duplicate entry
- Save significant time by implementing automated processes that work for you and your staff

Keep defendants informed and set up for success throughout every stage of the pretrial process with streamlined, automated reminders.
