

# Pretrial Supervision

Manage and oversee defendants through a full-service supervision solution to streamline workflows and improve community safety

equivant Pretrial's software solution, the Northpointe Suite, offers beginning-to-end pretrial management capabilities, collecting the pertinent data and information your team needs – all in one place. From defendant history to release recommendations, agreements, supervision and everything in between, our integrated solution allows seamless tracking of case processing events, and includes scheduling, automated reminders, and more to create efficiencies, streamline processes, and reduce duplicate data entry.

## Key Features

Pretrial case summaries detailing bond recommendations, release conditions, court dates, and more

At-a-glance workload tracking

Configurable pretrial release agreements

Automated library of pretrial assessments

Court date reminders with SMS capabilities

Create agency-specific reports with ad hoc data extraction

Configurable dashboards, workflows, and triggers

## With equivalent Pretrial, your agency can:
